Concrete Repair / Waterproofing Operatives

OnSite is a successful, growing company that is looking for talented employees who want to work in an environment that is challenging and rewarding.

OnSite is part of SSI Services (UK) Ltd, a division of South Staffordshire Plc. OnSite is a long established company and respected throughout the water and waste water industries, with vast experience in surveying, managing and maintaining the industry's assets. Through a single point of contact, OnSite can provide engineering-based services dealing with all aspects of the waste water cycle and clean water underground pipeline services. We are a successful, growing company that is looking for talented employees who want to work in an environment that is challenging and rewarding.

What is the job:

An exciting opportunity has arisen for a Concrete Repair / Waterproofing Operative to join our team. The Operative will be part of a multidisciplinary team working in a challenging and rewarding environment. OnSite Specialist Maintenance are an established company who specialise in infrastructure refurbishment and structural waterproofing.

Based at our Nottingham Depot but will include travel throughout the UK.

This is an excellent opportunity for an experienced operative who can be part of a large growing company joining what is an already excellent knowledge-based team. This is a fast based environment and a right first-time approach will be one of your main drivers.

About the successful applicant:

Additional Information
